## INDEPENDENT AUDITORS' REPORT

Board of Directors  
West Ridge Academy  
Greeley, Colorado

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and the major fund of West Ridge Academy, a component unit of Weld County School District 6, as of and for the year ended June 30, 2015, which collectively comprise West Ridge Academy's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund West Ridge Academy as of June 30, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matters***Adoption of New Accounting Standard*

As described in Note 2 to the financial statements, West Ridge Academy adopted the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and the related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, an amendment of GASB Statement No. 68. As a result of the implementation, of GASB Statement No. 68, West Ridge Academy reported a restatement for the change in accounting principle. Our opinions were not modified with respect to the restatement.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages iii - vi, the budgetary comparison information on page 18, and the pension schedules on pages 19-21 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Management's Discussion and Analysis**  
***For the Fiscal Year Ended June 30, 2015***

This section of the report provides readers with a narrative overview and analysis of the financial activities of West Ridge Academy Charter School (the School) for the year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with the basic financial statements to enhance their understanding of the School's financial performance.

**FINANCIAL HIGHLIGHTS**

- West Ridge Academy Charter School experienced an increase of \$190,677 in net position at June 30, 2015.
- West Ridge Academy Charter School's General Fund assets exceeded liabilities by \$278,737 at June 30, 2015.
- Total unrestricted cash was \$305,492 at June 30, 2015, as compared to \$77,891 at June 30, 2014.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The basic financial statements contain three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. In addition to the basic statements, this report also contains required and other supplementary information.

**Government-wide Financial Statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the School's finances in a manner similar to a private sector business.

The *statement of net position* presents information on all of the School's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the four reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the School's financial position is improving or deteriorating.

The *statement of activities* presents the government's changes in net position during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected fees).

The government-wide financial statements can be found on pages 1 – 2 of this report.

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. West Ridge Academy Charter School, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources, as well as on balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

**WEST RIDGE ACADEMY CHARTER SCHOOL**  
**An authorized charter school of Weld County School District 6**  
**Management's Discussion and Analysis**  
**For the Fiscal Year Ended June 30, 2015**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

West Ridge Academy Charter School maintains one individual governmental fund, the General Fund, which is considered to be a major fund.

The basic governmental fund financial statements can be found on pages 1 through 6 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 7 through 18 of this report.

**Budgetary Comparisons.** West Ridge Academy Charter School adopts an annual appropriated budget for the General Fund. A budgetary comparison statement has been provided for the General Fund on page 19 of this report.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net position.** As noted earlier, net position may serve over time as a useful indicator of a government's financial position.

**FINANCIAL ANALYSIS OF THE SCHOOL'S GENERAL FUND**

The General Fund ended the year with a fund balance of \$278,737, an increase of \$258,115 from the beginning fund balance. The School was able to increase the ending fund balance by cost control measures, increased enrollment, and increased fund raising efforts.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The School's budget is prepared according to Colorado statutes.

West Ridge Academy budgeted for 205 students for the Per Pupil Revenue (PPR). The actual number ended up being 214. This increase coupled with the fact that we received supplemental income in per pupil revenues improved our financial standing.

There was also an increase in fundraising efforts that helped offset expenses.

Other savings were due to tight budgetary management. The administration and the board of directors know that West Ridge Academy needed to improve the net fund balance and therefore closely monitored all expenses.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets.** West Ridge Academy Charter School's investment in capital assets for its governmental type activities as of June 30, 2015 totals \$130,663 (net of accumulated depreciation). This investment includes a modular building and equipment.

The School utilizes the straight-line depreciation method for its capital assets. Depreciation is recognized when the asset is placed into service.

Additional information on the School's capital assets can be found in note 4 of this report.

**Future Operations**

West Ridge Academy is reaping the benefits of its better financial management, academic vision and strategy. The School is at its highest enrollment ever. Standardized test scores are consistently improving and the School has the strongest ending fund balance ever. Teachers and staff are finally being paid a competitive salary.

Because of the aforementioned positive attributes of the school, demand to attend West Ridge Academy is increasing. Therefore, the board of directors and administration are exploring the possibility of expanding from a one track school to a two track school.

As West Ridge Academy continues to strive for excellence, the Administration will continue to look for incorporating best practices, managing strategic vision, and putting the school in a strong financial and academic position.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of West Ridge Academy Charter School finances for all those with an interest in the Schools' finances. Questions concerning any of the information provided should be addressed to West Ridge Academy Charter School, 6200 West 20<sup>th</sup> Street, Greeley, Colorado 80634.

**June 30, 2015**

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balance - governmental fund	\$ 258,115

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense (\$20,974) exceeded capital outlay (\$212,612). (8,362)

Some items reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

**WEST RIDGE ACADEMY**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2015**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of West Ridge Academy (the School) conform to accounting principles generally accepted in the United States of America. The following is a summary of the School's significant accounting policies:

**Reporting Entity**

The School is a charter school organized under the Colorado Charter Schools Act (Colorado Revised Statutes §22-30.5-101). This Act permits school districts to contract with individuals and organizations for the operation of schools within Weld County School District 6 (the District). The statutes define these contracted schools as "charter schools." Charter schools are financed from a portion of the school district's School Finance Act revenues and from revenues generated by the charter school within limits established by the Charter School Act. Charter schools have separate governing boards; however, the school district's board of education must approve all charter school applications and budgets.

The school operates under a charter granted by the Weld County School District 6 (the District) Board of Education. The School is funded based on the level of per pupil operating revenue (PPR) as defined by the State of Colorado Legislature and the number of full-time equivalent (FTE) students. As of the designated count day (October 1, 2014), there were 207 students enrolled. The PPR rate for the fiscal year ended June 30, 2015, was approximately \$6,600.

The School is a component unit of the District and is included in the District's Comprehensive Annual Financial Report.

The accounting policies of West Ridge Academy (the School) conform to accounting principles generally accepted in the United States of America. The following is a summary of the School's significant accounting policies:

**Government-wide and Fund Financial Statements**

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government.

The statement of activities demonstrates the degree to which the direct expense of a given function segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to students or individuals who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as general revenues.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Revenue from per pupil operating revenue is recognized in the fiscal year for which the funding is provided. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**WEST RIDGE ACADEMY**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2015**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measureable means that the amount of the transaction can be determined. Available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

Charges for services are considered revenue once the service is rendered, and as such are considered susceptible to accrual. All other revenue items are considered to be measureable and available only when cash is received by the government.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed.

The School only has one fund. The General Fund is the School's primary operating fund and accounts for all financial resources of the School.

**Use of Estimates in the Preparation of Financial Statements**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. The estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

**Capital Assets**

Capital assets are valued at historical cost or estimate historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

All reported capital assets, except for land, are depreciated. Depreciation on all assets is provided using the straight-line method over the following estimated useful lives:

Equipment	10 years
Computers and software	5 years

**Net Pension Liability**

The School's governmental activities report a net pension liability as of June 30, 2015. Due to the implementation of GASB No. 68, the School is required to report their proportionate share of PERA's unfunded pension liability. See Note 8 for additional information.

**WEST RIDGE ACADEMY**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2015**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Net Position/Fund Balance**

In the government-wide financial statements, net position is restricted when constraints placed on the net position are externally imposed. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets.

In the fund financial statements, fund equity of the School's governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned.

Nonspendable fund balances indicate amounts that cannot be spent either a) due to form; for example, inventories and prepaid amounts or b) due to legal or contractual requirements to be maintained intact.

Restricted fund balances in the School's general fund indicate amounts constrained for specific purpose by external parties, constitutional provision or enabling legislation. Restrictions on the School's general fund balance are described in Note 7.

Committed fund balances indicate amounts constrained for a specific purpose by a government using its highest level of decision-making authority. It would require an ordinance by the School's board to remove or change the constraints placed on the resources. This action must occur prior to year-end; however, the amount can be determined in the subsequent period.

Assigned fund balances indicate amounts for governmental funds, other than the general fund, any remaining positive amounts not classified in the above categories. For the general fund, amounts constrained for the intent to be used for a specific purpose has been delegated to the Business Manager.

Unassigned fund balances indicate amounts in the general fund that are not classified as nonspendable, restricted, committed, or assigned. The general fund is the only fund that would report a positive amount in unassigned fund balance. When both unassigned and committed or assigned resources are available for use, it is the School's policy to use committed, then assigned resources first, then unassigned resources as needed.

**NOTE 2 – RESTATEMENT OF NET POSITION**

For the year ended June 30, 2015, the School adopted the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions (GASB No. 68)*, and the related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, an amendment of GASB Statement No. 68, which are effective for financial statements for periods beginning after June 15, 2014. GASB No. 68 revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. GASB 68 requires cost-sharing employer participating in the PERA program, to record their proportionate share, as defined in GASB No. 68, of PERA's unfunded pension liability.

For the School, the effect of implementing this standard was to change how it accounts and reports the net pension liability. Implementation of the standard resulted in a restatement of the prior period net position as shown below.

**WEST RIDGE ACADEMY**

**June 30, 2015**

Net Position, June 30, 2014, as Restated	\$ (1,525,107)

**Income Taxes**

The School is a nonprofit organization as described in section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes.

**NOTE 3 – CASH AND INVESTMENTS**

Colorado statutes govern the School's deposits of cash and investments. The Colorado Public Deposit Protection Act (PDPA) requires that all units of a local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102 percent of the uninsured deposits. At June 30, 2015, the School's carrying amount of deposits was \$305,492 and the bank balance was \$311,931.

**NOTE 4 – CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2015, was as follows:

	<u>Balance</u> <u>June 30, 2014</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>June 30, 2015</u>

**NOTE 5 – OPERATING LEASES**

The School entered into a three-year lease for a building beginning July 2011. The lease requires rent of \$10,000 per month over the term of the lease. Rental expense for the lease was \$120,000 for the year-ended June 30, 2015. The lease commitment has been automatically renewed each year. The School is currently in negotiations regarding the fiscal year 2016 payment and have agreed to a \$14,000 per month payment for fiscal year 2016 during the negotiation process.

**NOTE 6- RELATED PARTY TRANSACTIONS**

**Property Transactions**

The former Principal of the School is a partner in West Twentieth LLLP. The School leases its building under terms of an operating lease agreement (note 5) from West Twentieth LLLP.

**NOTE 7 – RESTRICTION OF NET POSITION**

On November 3, 1992, the voters of the State approved an amendment to the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR limits the ability of the state and local governments such as the School to increase revenues, debt and spending and restricts property, income and other taxes. In addition, the amendment requires government entities to create an emergency "reserve" of 3% of annual spending excluding bonded debt service. In November 1998, voter approval was given to Weld County School District 6 to remove the restriction on growth in revenue, eliminating the restriction of revenues on the School. The 3% emergency reserve is still required both at the District and the School level. At June 30, 2015, management believes the School complied with the requirements to include emergency reserves in its budgetary basis fund balance.

**NOTE 8 – DEFINED BENEFIT PENSION PLAN**

The School participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deletions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**NOTE 8 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

**General Information about the Pension Plan**

*Plan description.* Eligible employees of the School are provided with pensions through the School Division Trust Fund (SCHDTF) – a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S), administrative rules are set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided.* PERA provides retirement, disability, and survivor benefits. Retirements are determined by the amount of service credit earned and/or purchases, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

**NOTE 8 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contributions.* Eligible employees of the School are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 2451-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For the Year Ended December 31, 2014	For the Year Ended December 31, 2015
Employer Contribution Rate <sup>1</sup>	10.15%	10.15%
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) <sup>1</sup>	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF <sup>1</sup>	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 <sup>1</sup>	3.80%	4.20%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 <sup>1</sup>	3.50%	4.00%
Total Employer Contribution Rate to the SCHDTF <sup>1</sup>	16.43%	17.33%

<sup>1</sup>Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the School is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF for the School for the years ended June 30, 2015, 2014 and 2013 were approximately \$111,600, \$86,500 and \$92,500, respectively.

**NOTE 8 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources**

At June 30, 2015, the School reported a liability of \$1,850,011 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2013. Standard update procedures were used to roll forward the total pension liability to December 31, 2014. The School's proportion of the net pension liability was based on the School's contributions to the SCHDTF for the calendar year 2014 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2014, the School's proportion was 0.0136498351%, which was an increase of 0.0000886862% from its proportion measured as of December 31, 2013.

For the year ended June 30, 2015, the School recognized pension expense of \$160,524. At June 30, 2015, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ -	\$ 138
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings on pension plan investments	42,544	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	8,255	-
Contributions subsequent to the measurement date	55,520	-
Total	\$ 106,319	\$ 138

\$55,520 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2015. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended</b> June 30, 2015		
2016	\$	13,642
2017	\$	13,642
2018	\$	12,740
2019	\$	10,636
2020		-
Thereafter		-

*Actuarial assumptions.* The total pension liability in the December 31, 2013 actuarial valuation was determined using the following actuarial assumptions and other inputs:

**NOTE 8 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

Price inflation	2.80 percent
Real wage growth	1.10 percent
Wage inflation	3.90 percent

Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.50 percent
Future post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (automatic)	2.00 percent
PERA Benefit Structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years.

The actuarial assumptions used in the December 31, 2013 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

The SCHDTF's long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent analysis of the long-term expected rate of return, presented to the PERA Board on November 15, 2013, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>10 Year Expected Geometric Real Rate of Return</b>
U.S. Equity – Large Cap	26.76%	5.00%
U.S. Equity – Small Cap	4.40%	5.19%
Non U.S. Equity – Developed	22.06%	5.29%
Non U.S. Equity – Emerging	6.24%	6.76%
Core Fixed Income	24.05%	0.98%
High Yield	1.53%	2.64%
Long Duration Gov't/Credit	0.53%	1.57%
Emerging Market Bonds	0.43%	3.04%
Real Estate	7.00%	5.09%
Private Equity	7.00%	7.15%
Total	100.00%	

\* In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.50%.

**WEST RIDGE ACADEMY**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2015**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

*Discount rate.* The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the fixed statutory rates specified in law, including current and future AED and SAED, until the Actuarial Value Funding Ratio reaches 103 percent, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero. Based on those assumptions, the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the Municipal Bond Index Rate. There was no change in the discount rate from the prior measurement date.

*Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate.* The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of the net pension liability	\$ 2,439,409	\$ 1,850,011	\$ 1,356,675

*Pension plan fiduciary net position.* Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report, which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 9 - POSTEMPLOYMENT HEALTHCARE BENEFITS**

Health Care Trust Fund

*Plan Description* – The School contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy* – The School is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the School are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2015, 2014 and 2013, the School's contributions to the HCTF were \$6,309, \$5,554 and \$5,634, respectively, equal to their required contributions for each year.

**NOTE 1 – BUDGETS AND BUDGETARY ACCOUNTING**

The School conducts all necessary budgeting procedures maintaining separate budgets for each fund.

The School adheres to the following procedures in establishing the budgetary data reflected in the financial statements.

- a) Budgets for all funds are required by the District. During June, the proposed budget is submitted to the Board for consideration and approval at a public hearing. The budget includes proposed expenditures and the means of financing them.
- b) The Public hearings are conducted by the School's Board of Directors to obtain parents and other members of the public comment and recommendations.
- c) Prior to June 30, the budget is adopted by formal resolution.
- d) The School's contract with the District requires submission of the approval and amended budgets to the District.
- e) Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between funds, reallocation of budget line items and revisions that alter the total appropriations of any fund must be approved by the School's Board of Directors. Appropriations are based on total funds expected to be available in each budget year, which may include beginning fund balances and reserves as established by the Board of Directors.
- f) Budgets for all fund types are adopted on a basis consistent with GAAP.
- g) Budgeted amounts reported in the accompanying supplemental information are as originally adopted and as amended by the Board of Directors throughout the year. Budgeted amounts included in the financial statements are based on the final budget as adopted by the School's Board of Directors on June 8, 2015.
- h) All appropriations lapse at the end of each fiscal year.
